

Joe Montroy

Cybersecurity Student at Loyola University Chicago

I am a hard-working Sophomore with a lot of experience working in fast-paced team-based environments. I am a natural-born leader with a competitive spirit to produce to the best of my ability. I'm proficient in Java, Python, HTML, and CSS. I love working on coding and cybersecurity projects on my raspberry pi and competing in cybersecurity competitions. I'm very versatile and can fit into many different roles, and I think I would be a great addition to your team.

Cybersecurity Experience:

Cybersecurity Competitions

National Cyber League Fall 2024

- Scored Highly at: **OSINT, Exploitation and Enumeration**, and **Cryptography**
- **Placed 375 points above average player**

Cyberfire hosted Loyola CTF Spring 2025

- Scored Highly at: **Network Archaeology, Threat Intel**, and **Cryptography**
- **Placed 4th overall**

Personal Cybersecurity Projects Blog on My Website montroycyber.com

Recent Projects:

Building my own website using HTML and CSS

Raspberry Pi Badge Cloner using PN5180 & RC522

I have taken a **CompTIA Security+** course and plan to have my certification completed by June 1st.
